

April 2018 Data Release

The Home Purchase Sentiment Index[®] (HPSI) is a composite index designed to track consumers' housing-related attitudes, intentions, and perceptions, using six questions from the National Housing Survey[®] (NHS).

The Home Purchase Sentiment Index

The HPSI rose 3.4 points in April to 91.7, marking a new all-time survey high.

Components of the HPSI

The increase in the HPSI can be attributed to increases in five of the six HPSI components: "Home Price Will Go Up (+7), "Good Time To Sell" (+6), "Confidence About Not Losing Job" (+5), and "Mortgage Rates Will Go Down" (+4), and Household Income is Significantly Higher" (+1).

	April 2018*	Change Since Last Month	Change Since Last Year	
April 2018 HPSI	91.7	+3.4	+5.0	
Good Time To Buy	29	-3	-6	
Good Time To Sell	45	+6	+19	
Home Prices Will Go Up (next 12 months)	49	+7	+4	
Mortgage Rates Will Go Down (next 12 months)	-48	+4	+9	
Confidence About Not Losing Job (next 12 months)	76	+5	-1	
Household Income Is Significantly Higher (past 12 months)	18	+1	+5	
* Net percentages of the component questions used to calculate HPSI, e.g. (Percent Good Time to Buy – Percent Bad Time to Buy) = 29				

Components of the HPSI – Good/Bad Time to Buy and Sell a Home

The net share of Americans who say it is a good time to buy a home fell 3 percentage points to 29%.

In April, the net percentage of those who say it is a good time to sell rose 6 percentage points to 45%, reaching a new survey high.

Components of the HPSI - Home Price and Mortgage Rate Expectations

The net share of Americans who say home prices will go up rose 7 percentage points to 49% in April.

The net share of those who say mortgage rates will go down over the next 12 months rose 4 percentage points to -48%.

Components of the HPSI – Job Concerns and Household Incomes

The net share of Americans who say they are not concerned about losing their job rose 5 percentage points in April to 76%.

The net share of those who say their household income is significantly higher than it was 12 months ago rose 1 percentage point to 18%.

Additional National Housing Survey Key Indicators

On average, Americans expect rental prices to rise 5.7% over the next 12 months, increasing 1.2 percentage points to a new survey high. They expect home prices to rise 3.9% over the next 12 months, a 0.9 percentage point increase.

The share of Americans who expect home rental prices to go up rose 3 percentage points from last month to 61% - matching a survey high, and the share of those who expect home rental prices to go down remained at 2%.

Additional National Housing Survey Key Indicators

The share of Americans who say they would buy if they were going to move fell 4 percentage points to 66%, reversing the increase seen in March, while the share who say they would rent rose 2 percentage points to 28%.

The share of Americans who say getting a mortgage would be easy fell 5 percentage points to 54%, while the share who say it would be difficult rose 6 percentage points to 43%.

Additional National Housing Survey Key Indicators

The share of Americans who expect their personal financial situations to get better rose 2 percentage points to 54% - reaching a new survey high. The share who expect it to stay the same fell 2 percentage points to 34%.

The share of Americans who say the economy is on the right track fell 2 percentage points to 51% while the share who say it is on the wrong track remained at 38%.

The National Housing Survey®

April 2018 APPENDIX

About the Survey

The National Housing Survey[®] polled a nationally representative sample of 1,002 household financial decision makers (margin of error $\pm 3.1\%$) aged 18 and older between April 1, 2018 and April 26, 2018. Most of the data collection occurred during the first two weeks of this period.

Interviews were conducted by PSB, in coordination with Fannie Mae.

The statistics in this release were estimated from sample surveys and are subject to sampling variability as well as nonsampling error, including bias and variance from response, nonreporting, and undercoverage. Averages of expected price changes were calculated after converting responses of "stay the same" to 0% and after excluding outliers, which were defined to be responses that were more than two standard deviations from the means.

How the Home Purchase Sentiment Index (HPSI) is Calculated*			
Net Good Time to Buy Very or Somewhat Good Time To Buy – Very or Somewhat Bad Time To Buy	Q12		
Net Good Time to Sell Very or Somewhat Good Time To Sell – Very or Somewhat Bad Time To Sell	Q13		
Net Home Prices Will Go Up (next 12 months) Home Prices Will Go Up – Home Prices Will Go Down	Q15		
Net Mortgage Rates Will Go Down (next 12 months) Mortgage Rates Will Go Down – Mortgage Rates Will Go Up	Q20B		
Net Confident About Not Losing Job (next 12 months) Not at All or Not Very Concerned about Losing Job – Very or Somewhat Concerned about Losing Job	Q112B		
Net Household Income is Significantly Higher (past 12 months) Income is Significantly Higher – Income is Significantly Lower	Q116		
$HPSI = \frac{Q12 + Q13 + Q15 + Q20B + Q112B + Q116}{6} + 63.5$			
* The HPSI calculation includes the addition of a constant of 63.5 in order to set the index's initial value at 60 with the Index of Consumer Sentiment and the Consumer Confidence Index	as of March 2011, in range
